To the Honorable Mayor, Members of the Board, and Citizens of the City of LaVergne:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, I hereby issue the comprehensive annual financial report of the City of LaVergne for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the City of LaVergne. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of LaVergne has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of LaVergne's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of LaVergne's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, I assert that, to the best of my knowledge and belief, this financial report is complete and reliable in all material respects.

The City of LaVergne's financial statements have been audited by Yeary, Howell & Associates, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of LaVergne for the fiscal year ended June 30, 2015 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of LaVergne's financial statements for the fiscal year ended June 30, 2015 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of LaVergne's MD&A can be found beginning on page 3, immediately following the report of the independent auditors.

Profile of the Government

The City of LaVergne is in Rutherford County, borders Metro-Davidson County, and is centrally located in Middle Tennessee. This places LaVergne strategically within a day's drive from approximately 70% of the population of the United States. With the advent of on-demand-delivery in all aspects of business and industry, LaVergne is positioned to have continued industrial, distribution, publishing, and commercial growth for the foreseeable future.

LaVergne was first incorporated February 28, 1861, but the incorporation was rescinded in 1881, because – since the Civil War – no city officials had been elected and there weren't enough adults to let the town organize a Board of Mayor and Aldermen and town constitution. The City of LaVergne, re-incorporated in 1972, is a general law charter municipality. City government is conducted under the mayor-alderman system. The Board of Mayor and Aldermen is comprised of five (5) members. The mayor serves a four-year term and is elected at large. The aldermen are elected for staggered four-year terms. They are also elected at large.

The City of LaVergne provides a full range of services, including police protection; contract fire protection; the construction and maintenance of highways, streets and infrastructure improvements; planning and zoning, health and social services, culture, parks and recreational activities; public library, and general administrative services. In addition to general governmental activities, the City operates the water and sewer fund, including a water treatment plant.

The Mayor/Alderman reviews the budget requests of the areas with department heads and city administrator annually. The final budget is presented to the Mayor/Alderman meeting for their final approval. Two readings are required.

The City of LaVergne maintains budgetary control designed to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City's governing body. Activities of the general fund, special revenue funds, and capital project funds are included in the annual appropriated budget.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund this comparison is presented on pages 20-25. As part of the supplementary information the highway and streets fund comparison is presented on page 53. For governmental funds which are not considered major funds, the

appropriated annual budget comparisons are presented in the combined individual fund subsection of this report, which starts on page 46.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of LaVergne operates.

Local Economy. LaVergne is one of the fastest growing communities in the state as well as the country. From 1990-2014, the City grew from 7,499 to approximately 36,242 which is an increase of 483%. With the largest industrial park and the largest subdivision in the state, LaVergne is home to two of Rutherford County's top ten employers and business is slightly above satisfactory even with today's economy.

Rutherford County's retail trade base is made up of over 350,000 people. It has developed into a retail center attracting shoppers from a 10-county region. Part of the reason for this phenomenal growth is the close location to major interstates — Interstate 24 runs directly through LaVergne and Interstates 65, 840 and 40 are within 15 miles — as well as the availability of major city resources in nearby Nashville, Smyrna, and Murfreesboro. The northernmost city in Rutherford County, LaVergne is proud to be the home to international companies such as Bridgestone, Ingram Distribution, Schneider Electric, Ajax-Turner, Cardinal Health, Quality Industries, Venture Express, Saks, Parthenon Metal Works, SVP Worldwide, and more.

The numerous employment opportunities, combined with a low city property tax rate (\$1 per \$100 of assessed value), have caused LaVergne to experience in-migration at over twice the national average. Residents have easy access to Percy Priest Lake and are just a few miles from pro football, pro hockey, Nashville International Airport, and two miles from the Smyrna Airport.

New and previously owned housing is available in the City which offers the amenities of grocery and convenience stores, restaurants, and other shopping outlets.

In addition, three elementary, one junior high and one high school provide quality education for all students. A number of local colleges and universities are located within 20 miles of LaVergne, including Middle Tennessee State University, Tennessee State University, Vanderbilt University, Belmont University, and David Lipscomb University. The local economy has consistently been healthier than the national economy. The City is committed to building a future in which economic growth and prosperity is balanced with a high quality of life for all of its citizens.

Long-Term Financial Planning. The City has numerous capital projects currently funded and under construction. Highways and Streets Capital Projects include: Widening of Nir Shriebman near roundabout and a new turn late at intersection of

Highway 41 and Nir Shreibman. Parks Capital Projects include: Hurricane Creek greenway project Phases II. Water and Sewer Capital Projects include: water line upgrades and extensions, storage tank upgrades, converting to electronic meters, and sewer pump station upgrades.

Relevant Financial Policies

The city's strives to maintain a year end general fund balance of approximately 25 to 30 percent of operating revenues. The 2014-15 year end general fund balance was approximately 45% of operating revenues.

The City has adopted a debt policy and policies and procedures for the administration of federally tax exempt dept obligations. This change was made by the Council as an effort to protect city assets and be in compliance with state and federal regulations.

Major Initiatives

The City of LaVergne has many projects underway in the water/sewer system area. Replacement of small diameter lines with larger diameter lines is an ongoing focus for the city. The city received a 97% sanitation rating on its last survey from the State of Tennessee Department of Environment and Conservation Division of Water Supply, which was done in 2015. This rating was up from the rating seven years ago at 75%. Several of our sewer pump stations have also been upgraded with newer pumps in an effort to provide the utmost in sewer related services. Funds for these improvements will come from excess water/sewer fund balance and bond issues.

The widening of Waldron Road completed in 2014 and the growing population for the City of La Vergne has sparked interest by several major developers.

The city implemented an increase in property taxes from \$.50 to \$1 per \$100 assessed value in 2010. This increase was necessary due to requirements for increasing fire protection, increase in police protection and debt service obligations. The city also implemented a water rate increase. The rate increase was necessary due to increased expenditures over the past several years where no rate increase has occurred. The last utility rate increase was in 1999. These increases allowed the city to meet its budget requirements for the year.

Improving safety for the citizens of LaVergne is also a focus for the city. A new police substation was opened in the Lake Forrest residential area a couple of years ago and is being utilized for the safety of citizens of La Vergne. Also, a new backup police dispatch center is now operating at an offsite facility. The city of LaVergne has also aligned itself with Rutherford County Emergency Services for disaster related events. Several cities in and around Rutherford County are currently being trained on handling disaster events. This training was instrumental during the floods in May 2010. The City

purchased a previously privately owned Fire Department in 2014.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of LaVergne for its comprehensive annual financial report for the fiscal year ended June 30, 2014. [This was the twentieth consecutive year that the government has received this prestigious award.] In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. I would also like to express my appreciation to all other department heads that assisted and contributed to the preparation of this report. Credit must also be given to the Board of Mayor and Aldermen for their unfailing support for maintaining the highest standards of professionalism in the management of the City of LaVergne's finances. The firm of Yeary, Howell & Associates was most helpful in reviewing the interpretations of financial presentation and disclosure requirements.

Respectfully submitted,

Phillis Rogers
Finance Director

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Board of Aldermen City of La Vergne, Tennessee La Vergne, Tennessee

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business - type activities, each major fund, and the aggregate remaining fund information of the City of La Vergne, Tennessee (the City), as of and for the year ended June 30, 2015, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control, relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of La Vergne, Tennessee as of June 30, 2015, and the respective changes in financial position and where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pages 3 through 13, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Honorable Mayor and Board of Aldermen City of La Vergne La Vergne, Tennessee

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of LaVergne's basic financial statements. The introductory section, combining and individual nonmajor fund statements and schedules, and statistical section are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except those marked "unaudited", has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund statements and schedules, are fairly stated in all material respects in relation to the financial statements as a whole. The information marked as "unaudited" has not been subjected to the auditing procedures applied in the audit of the financial statements; and accordingly, we do not express an opinion or provide any assurance on it.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or provide any assurance on them.

Other Reporting Required by Governmental Auditing Standards

Year Hourl's Dosorate

In accordance with Government Auditing Standards, we have also issued our report dated October 16, 2015 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of LaVergne's internal control over financial reporting and compliance.

October 16, 2015

Management's Discussion and Analysis

As management of the City of La Vergne, Tennessee (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2015. Comparative information for fiscal year 2014 and 2015 is presented in this discussion and analysis. The analysis focuses on significant financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the City.

Management's Discussion and Analysis (MD&A) focuses on current year activities and resulting changes. Please consider the information presented here in conjunction with our Letter of Transmittal (Page i-vi).

Financial Highlights:

The assets and deferred outflows of resources of the City of La Vergne exceeded its liabilities and deferred inflow of resources at the close of the most recent fiscal year by \$112,159,469 of this amount; \$21,098,391 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.

The governments total net position increased by \$5,809,861.

As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$17,222,649 an increase of \$4,810,965 resulting from the current year operation. Approximately \$7,384,803 of that total is not available for spending at the government's discretion (non-spendable, restricted, and assigned.).

At the end of the current fiscal year, unassigned fund balance (spendable at the government's discretion) of the General Fund was \$9,837,846 or 45.4% of the total general fund expenditures.

The City's total debt (bonds, capital lease, capital outlay note, and other obligations) increased by \$3,017,009 (7.9%) during the current fiscal year.

Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the City of La Vergne's basic financial statements. The City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets, liabilities, deferred inflow and outflows of resources with the difference between the two reported as net

position. Over time, increases or decreases in net positions may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net positions changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected tax and earned but unused vacation leave),

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of La Vergne include general government, police, fire, highway and streets, stormwater, health and welfare, recreation and library. The business-type activities of the City include water and sewer service operations. The governmental-type and business-type activities are allocated their respective portion of the self-insured medical insurance internal service fund.

The government-wide financial statements can be found on pages 14-15 of this report.

Fund financial statements. A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated from specific activities or objectives. The City of La Vergne, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds. Governmental Funds are funds used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains ten individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, library, state street aid and highway and streets capital projects fund which are considered to be major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements on pages 44-45 in this report.

The City of La Vergne adopts an annual appropriated budget for all its governmental funds. Budgetary comparison statements have been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 16-19 of this report.

<u>Proprietary Funds.</u> The City of La Vergne maintains two types of proprietary funds. It uses an enterprise fund to report the same functions presented in the business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations.

It uses an internal service fund to account for the activities in its self-insured medical insurance fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 26-28 of this report.

<u>Notes to the financial statements.</u> The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29-43 of this report.

Required budgetary information. The required budgetary information provides budget comparison information for the special revenue funds. Non-major governmental fund budgetary schedules can be found on pages 46-53 of this report.

Financial Analysis of the Financial Statements

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of La Vergne, assets exceeded liabilities and deferred inflow of resources by \$112,159,469 at the close of the most recent fiscal year.

By far the largest portion of the City's net position (74.6%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure) plus bond proceeds on hand for restricted assets less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

^{*} Restated per GASB 65 for debt issuance cost

A portion of the City's net position (6.58%) represents resources that are subject to external restrictions on how they may be used. The balance of unrestricted net position (\$21,098,391) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

The City of La Vergne's net position increased by \$5,809,861 during the current fiscal year. This increase is 5.2% percent of total net position.

Governmental Activities

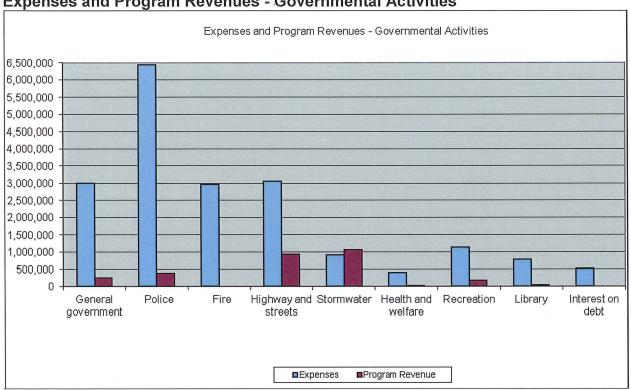

Governmental activities increased the City's net position by \$3,228,654 thereby accounting for 55.6% of the total increase in the net position of the City. The Business-type activities increased by \$2,581,207. These increases represent the degree to which decreases in expenses have not exceeded ongoing revenues for the current fiscal year.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services.

Expenses and Program Revenues - Governmental Activities

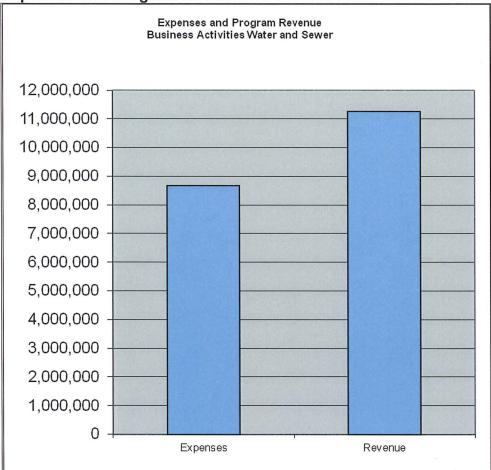

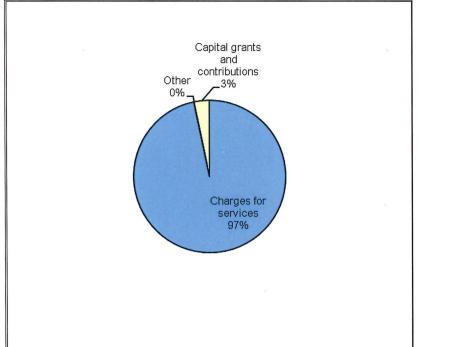

Business-type activities

Business-type activities increased the City's net position by \$2,581,207 accounting for 44.4% of the total increase in the government's net position. The key element of this increase is the result of revenue exceeding expenses. The major component of revenue increase is related to a rate increase implemented in the current fiscal year.

Revenues by Source – Business-type Activities Water and Sewer

Financial Analysis of the Financial Statements (Continued)

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City of La Vergne's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements in particular, unassigned fund balance may serve as a useful measure to a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$17,222,649, an increase of \$4,810,965 in comparison with the prior year. Approximately 57.1% of this total amount (\$9,837,846) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance (\$8,115,197) is reserved to indicate that it is not available for new spending because it has been restricted, assigned or designated as non-spendable and has been committed to provide for spending for specific funds, prepaid items and amounts expended for supply inventories. The increase in fund balance is mainly due to \$1,553,880 increase in tax revenue and non recurring \$2,000,000 expense from prior year.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$9,837,846, while total fund balance of general fund balance was \$9,863,178. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 99.7% of total general fund expenditures. Total fund balance represents 45.6% of total general fund expenditures.

The unassigned fund balance of the City's general fund at year end increased by \$4,932,808. The major reason for General Fund balance increase was due non recurring \$2,000,000 expense to purchase Fire Department from prior year along with increase in local sales tax increase of \$1,087,556 and increase in property tax \$344,944. Sales tax increased due to retail growth. General fund revenues increased by \$2,049,851 when compared to the prior year (mainly due to tax revenues), while general fund expenditures decreased by \$594,182 when compared to prior year.

Total fund balance of the highway and street capital projects fund increased by \$1,439,141. This increase is due to a bond issue to widen intersection of US 41 and Nir Shreibman and to extend Nir Shreibman Road. This project will be complete in the spring of 2015.

Total fund balance of all non-major special revenue funds increased by \$440,220 mainly due to revenues exceeding expenses in Stormwater Fund.

The City's proprietary funds provide the same type of information found in the government-wide financial statement, but in more detail.

The Water and Sewer fund change is net position was an increase of \$2,581,207 and is mainly due to revenues exceeding expenses. Annual rate increases, begun in 2011, continue to facilitate this increase.

Budgetary Highlights

Total general fund revenues for FY 2014-2015 were above final budgeted revenues by \$2,221,676 or 12.8%. Total expenditures for FY 2014-2015 were below final budgeted expenses by \$1,113,105 or 4.9%.

There were increases in General fund differences between the original budget for expenditures and the final amended budget. The following departments make up the majority of the increases:

Fire Dept

\$3,097,541

Debt Services

\$279,000

Actual expenditures for the above departments exceeded the original budget allocation. The budget amendment allowed for allocations of funding for the revised projected spending levels for the departments. Fire Department increase in budget \$3,097,541 was due to purchase of new fire equipment thru bond issues. Debt services increase \$279,000 was due to bond sale expenses and principal payment on new bond debt issued during the year.

Capital Asset and Debt Administration

Capital Assets

The City of La Vergne's investment in capital assets from its governmental and business-type activities at June 30, 2015, amounts to \$117,024,546 (net of accumulated depreciation). This investment in capital assets is in land, buildings, improvements, machinery and equipment, park facilities, roads, highways and bridges. The total increase in the City's investment in capital assets net of related debt for the current fiscal year was \$3,567,260 (3.8% increase for governmental activities and 2.2% increase for business-type activities).

Major capital asset events during the current fiscal year, before depreciation, are as follows:

- Approximately \$219,699 in infrastructure
- Approximately \$115,214 in Construction in Process
- Approximately \$255,134 in building
- Approximately \$4,908,628 in equipment
- Approximately \$1,070,838 in upgrades and additions to water and sewer system

City of La Vergne's Capital Assets

Additional information on the City of La Vergne's capital assets can be found in the notes to the financial statements section. This information is provided in note 3) Capital Assets, beginning on page 35 of this report.

| Revenue and tax bonds | | _ | 23,190 | <u>21,800</u> | <u>23,190</u> | <u>21,800</u> |
| Total | <u>15,190</u> | <u>19,597</u> | <u>23,190</u> | <u>21,800</u> | <u>38,380</u> | <u>41,397</u> |

At the end of the current year, the City of La Vergne has debt outstanding of \$41,397,054. The total debt of the City is secured by both the taxing power of the City and specific revenue sources (i.e., revenue and tax bonds) of the enterprise fund.

The City of La Vergne's total debt increased by a net total of \$3,017,006 (7.9%) during FY 2014-2015. New bond debt \$3,735,000 was issued in 2014-2015 for Fire Department Equipment. The total debt of the City is secured by both the taxing power of the City and specific revenue sources (i.e., revenue and tax bonds) of the enterprise fund.

The City of La Vergne maintains a AA rating from Standard & Poors.

State statutes impose no debt limit on the amount of general obligation debt a governmental entity may issue.

Additional information on the City of La Vergne's debt can be found in the notes to the financial statements section. This information is provided in note 5) Long-term Debt and other Obligations Payable, beginning on page 37 of this report.

Economic Factors and Next Year's Budget and Rates

The unemployment rate for the City of La Vergne is currently 5.2%, compared to the State unemployment rate of 5.7% and the national rate of 5.1%.

In the FY 2015-2016 budget, General fund revenues and transfers in are budgeted to decrease by 8.3% from the FY 2014-2015 original budget year. This decrease is primarily due to reduced spending from non-recurring Fire Dept purchase. The city property tax rate was lowered for fiscal year 2015-2016 to \$97.50 per 100 assessed value. The City's budget, as is with most City budgets, has been challenged by current economic conditions. The City will continue to monitor spending and use current resources as effectively and efficiently as possible to provide citizens safety and service that is deserved of them.

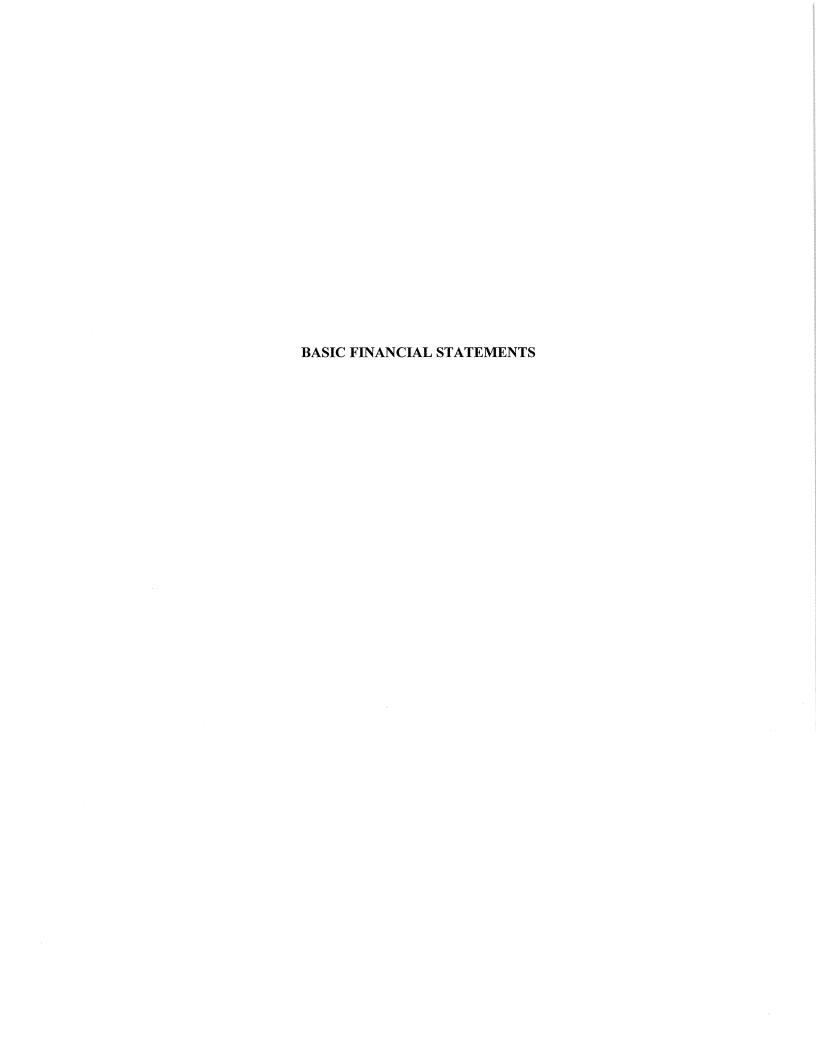

All of these factors were considered in preparing the City's budget for the 2015-2016 fiscal year.

During the current fiscal year, unassigned fund balance in the general fund increased by \$4,932,808 (mainly due to non-recurring expenses in the of Fire Dept) The ending total General fund balance increased to \$9,863,178 from previous year balance of \$6,931,574 after adjustment for the reserve for inventory. The fund balance for the General Fund is budgeted to remain unchanged or increase slightly for fiscal year 2015-2016.

Requests for Information

This financial report is designed to provide a general overview of the City of La Vergne, Tennessee's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Reconciliation of Balance Sheet to Statement of Net Position of Governmental Activities

June 30, 2015

| Amounts reported for fund balance - total governmental funds \$1 | 7,222,649 |
|--|------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. | 8,042,027 |
| Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds Property taxes receivable | 357,641 |
| Interest payable on long-term obligations are not due and payable in the current period and therefore, they are not reported in the governmental funds balance sheet. | (151,448) |
| Internal service fund is used by management to charge the costs of medical insurance to individual funds. The assets and liabilities of the internal service fund is included in governmental activities | |
| in the statement of net position. Cash | 1,159,230 |
| Accounts receivable | 46,843 |
| Accounts payable | (218,152) |
| Due to other funds | (516,675) |
| Gain and loss on bond refunding are amortized as a component of interest over the life of the bonds on the statement of net position. | 146,892 |
| Bond premiums and discounts are amortized as a component of intesest over the life of the bonds on the statement of net position. | (125,946) |
| Long-term liabilities, including bonds payable are not due and payable in the current period and therefore are not recorded in the funds. | 9,597,054) |
| Governmental bonds, notes, obligations and capital leases payable (1 Compensated absences payable | (361,441) |
| | 66,004,566 |

See accompanying notes to financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2015

| Amounts reported for net change in fund balance - total governmental funds | \$4,813,354 |
|---|--|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | |
| in the current period: Cost of assets acquired | 5,295,350 |
| Depreciation expense | (3,002,537) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds: Property taxes | 54,030 |
| Contributed capital assets | 203,609 |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, loss on refundings and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Debt repayment Bond premium written off Debt issuance Premiums on debt issuance Loss on refunding Amortization of premiums, discounts and deferred amount on refundings | 3,642,994 8,479 (8,050,000) (135,145) 46,091 (15,396) |
| Interest is accrued on the outstanding bonds in the Statement of Activities, whereas in the governmental funds, an interest expenditure is reported when due: Interest on bonded debt | (22,436) |
| Expenses reported for governmental activities do not require the use of current financial resources and are not reported as expenditures in the governmental funds: Inventory | (2,389) |
| Compensated absences Internal service funds are used by management to charge the costs of medical insurance to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities. | (53,756) 446,406 |
| Change in net position of governmental activities | \$3,228,654 |

See accompanying notes to financial statements.

Notes to Financial Statements

For the Year Ended June 30, 2015

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of La Vergne, Tennessee was incorporated on February 1, 1972, under the Uniform City Manager-Commission charter. On May 10, 1988, the City, in a referendum election, approved the Mayor-Aldermanic charter, referenced in Tennessee Code Annotated Section 6-1-101, that replaced the City Manager-Commission charter.

The City provides the following services as authorized by its charter: public safety, highways and streets, cultural and recreation, public improvements, planning and zoning, utilities (water and sewer) and general administrative services. The City also administers an insurance internal service fund for the benefit of its employees.

The financial statements of the City of La Vergne have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

Reporting Entity

In evaluating, how to define the government, for financial reporting purposes, management has considered all potential component units in accordance with the Governmental Accounting Standards Board Statement Number 14. The financial statements present the reporting entity which consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the City's financial statements to be misleading or incomplete. At June 30, 2015, no potential component units were considered to meet the above criteria.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. At June 30, 2015 the City had no fiduciary activities or component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (i) charges to customers or applicants (including fines and fees) who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and (ii) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise taxes, state shared revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period using the criteria specified in the paragraph above. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Highways and Streets Capital Projects Fund is used to account for the financial resources to be used for the acquisition or construction of major government capital assets, improvements or repairs related to the roads and related assets of the City.

The City reports the following major proprietary funds:

The Water & Sewer Fund accounts for the water and waste water services provided to customers of the system.

Additionally, the City reports the following fund types:

Internal service fund, to account for costs associated with the employees' health insurance plan.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's utilities and various other functions of the government for which elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)</u>

Measurement Focus, Basis of Accounting, and Financial Statement Presentation, (Continued)

Amounts reported as program revenues include (i) charges to customers or applicants (including fines and fees) for goods, services, or privileges provided, (ii) operating grants and contributions, and (iii) capital grants and contributions. General revenues include all taxes and internally dedicated resources.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the various utility funds and medical benefit fund are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash, Cash Equivalents and Investments

The City of La Vergne is authorized to invest in U.S. Treasury Bills bond or notes, mutual funds and certificates of deposit in local state and federal chartered banks and savings and loan associations as well as participate in the Local Government Investment Pool administered by the State of Tennessee. The pool contains investments in certificates of deposits, U.S. Treasury securities and Repurchase Agreements, backed by the U.S. Treasury Securities. The investment pool is administered by the Treasurer of the State of Tennessee. City of La Vergne policy dictates that collateral meet certain requirements, such as, be deposited in an institution which participates in the State Collateral Pool or be deposited in an escrow account in another institution for the benefit of the City of La Vergne and must be a minimum of 105% of the value of the deposits placed in the institutions less the amount protected by federal deposit insurance. The state collateral pool is administered by the Treasurer of the State of Tennessee. Members of the pool may be required by agreement to pay an assessment to cover any deficiency. At June 30, 2015, all City cash deposits were in checking or pass book accounts at a local bank which participates in the State Collateral Pool.

Cash and cash equivalents consist of cash, savings accounts and short-term certificates of deposit with an original maturity of three months or less. Due to liquidity, the City considers the funds deposited in the local government investment pool as a cash equivalent for financial statement and cash flow purposes. The fair value of the position in the investment pool is the same as the value of the pool shares.

Inventory and Prepaid Items

Inventory of proprietary funds, principally materials, supplies and replacement parts, is valued using the first-in, first-out method (FIFO). Any inventories of governmental funds have been valued at cost also using the first-in, first-out method (FIFO). Inventory of governmental funds are accounted for on the purchase basis. On government-wide financial statements, inventories are expensed when used. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds.

All trade receivables and property tax receivables, are shown net of an allowance for uncollectibles. The property tax receivable allowance is equal to 9 percent of outstanding undeferred receivable.

Capital Assets

Capital assets, which include property, plant, equipment, permanent water storage rights and infrastructure assets consisting of certain improvements other than buildings, including roads, bridges, streets and sidewalks, and drainage systems are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of three years. All capital assets are valued at historical cost or estimated historical cost, if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. There was \$170,100 in capitalized interest in fiscal year 2015 in the Water and Sewer Fund. The Water and Sewer Fund incurred \$673,870 in interest costs during the year.

Depreciation has been provided over estimated useful lives using the straight-line method.

The estimated useful lives are as follows:

| Infrastructure (roads, bridges) | 15-40 years |
|---------------------------------|-------------|
| Buildings | 25-50 years |
| Distribution systems | 10-50 years |
| Equipment | 3-10 years |
| Furniture and fixtures | 3-10 years |

Claims Payable

Medical insurance claims payable are classified as accounts payable and are recorded in accordance with GASB Statement Number 10.

Appropriations

Appropriations to other funds are accounted for as inter-fund transfers in the governmental fund statements, and are eliminated in the government-wide statements. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund. These are recorded as revenues in the fund being reimbursed and expenses in the fund reimbursing.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences

City policy permits the accumulation within certain limitations, of vacation and sick leave. Vacation leave may accumulate to a maximum of 30 days. Sick leave accumulation is unlimited. No amounts of sick days are vested in the event of employee termination.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee terminations or retirements. Governmental funds compensated absences are generally liquidated by the General Fund.

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Bond and note premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line method. Loss or refunding is reported as deferred outflows of resources and amortized over the shorter period of the old or new debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued and premiums received on debt issuance are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as current period costs in the year of issuance in all financial statements.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City currently has one item which qualifies for reporting in this category. Deferred charges on refunding are reported in the government-wide financial statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its acquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The *unavailable revenue* reported in the governmental funds balance sheet represents amounts that are deferred and recognized as an inflow of resources in the periods that the amounts become available. The unavailable revenue reported in the statement of net position consists primarily of assessed and unlevied property taxes and income taxes, and arises from imposed non-exchange revenues (property taxes) which are assessed prior to the end of the year but levied the subsequent year.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Equity Classification

In the government-wide financial statements, equity is shown as net position and classified into three components:

Net investment in capital assets – Capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgage notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – Net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; (2) law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is the City's practice to use restricted resources first and then unrestricted resources as they are needed.

Unrestricted net position – All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Balance

In accordance with Governmental Accounting Standard Board (GASB) Statement 54, fund balance is reported in the fund financial statements under the following categories. *Nonspendable fund balance* represents amounts that are required to be maintained intact, such as inventories and prepaid items. *Restricted fund balance* is that portion of fund balance that can be spent only for the specific purposes stipulated by external resource or through enabling legislation. *Committed fund balance* includes amounts constrained to specific purposes as determined by formal action of the City using its highest level of decision-making authority, an ordinance by the City Board. Conversely, to rescind or modify a fund balance commitment, action by the City Board is also required. *Assigned fund balance* amounts are intended to be used by the City for specific purposes but do not meet the criteria to be restricted or committed. Intent may be stipulated by the Board, by resolution. Appropriations of fund balance to eliminate projected budgetary deficits in the subsequent year's budget are presented as assignments of fund balance, if applicable. *Unassigned fund balance* is the residual classification of the General Fund.

It is the City's policy to first use the restricted fund balance when an expenditure is incurred for purposes for which both restricted and unrestricted funds are available. The City's policy for the use of unrestricted fund balance amounts require that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Property Tax

The City's property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the City's legal boundaries. Property taxes are secured by a statutory lien effective as of the original assessment date of January 1, and as such, an enforceable legal claim to the subsequent fiscal year levy exists at year end. Assessed values are established by the State of Tennessee at the following rates of assessed market value:

Industrial and Commercial Property

| - Real | 40% | Public Utility Property | 55% |
|------------|-----|-------------------------------|-----|
| - Personal | 30% | Farm and Residential Property | 25% |

Taxes were levied at a rate of \$.975 per \$100 and \$1.00 per \$100 of assessed valuation for tax year 2015 and tax year 2014, respectively. Payments may be made during the period from October 1 through February 28. Current tax collections of \$7,852,527 for the fiscal year ended June 30, 2015 were approximately 98 percent of the tax levy. Delinquent taxes past due for fourteen months are turned over to the county clerk for collection.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property Tax (Continued)

The government-wide financial statements report property taxes receivable of \$8,025,026 which is net of an allowance for doubtful collections of \$51,647. Of this receivable amount, \$426,673 represents prior year property taxes, \$7,650,000 represents the estimated net realizable 2015 property taxes assessed but which will not be levied until the subsequent fiscal year, and which are included in deferred inflow of resources. The receivable reported in the governmental funds balance sheet is \$8,076,673 with an offsetting deferred inflow of resources for amounts not available at June 30, 2015. The amount included in other taxes receivable reported in the statements of \$219,127 is for beer, business, liquor, and hotelmotel taxes.

2) DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's policy requires deposits to be 105 percent secured by collateral, less the amount of Federal Deposit Insurance Corporation insurance FDIC) or deposited in an institution which participates in the State Collateral Pool. Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health and service. Collateral agreements must be approved prior to deposit of funds as provided by law. The City approves and designates a list of authorized depository institutions based on evaluation of solicited responses and certifications provided by financial institutions and recommendations of City staff. At June 30, 2015, there were no amounts exposed to custodial credit risk.

Investments

At June 30, 2015, the City had no investments.

3) CAPITAL ASSETS

Governmental Activities

Capital assets activity for the year ended June 30, 2015 was as follows:

| | Balance | | 70 | D 1 | Balance |
|--------------------------------------|-----------------------|------------------|------------------|------------------|---------------|
| Asset | July 1, 2014 | <u>Increases</u> | <u>Decreases</u> | <u>Reclasses</u> | June 30, 2015 |

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

3) CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

| General Government | \$ 104,428 |
|----------------------|-----------------|
| Public Safety | |
| Police | 714,388 |
| Fire | 230,662 |
| Highways and Streets | 1,562,007 |
| Stormwater | 90,448 |
| Health and Welfare | 1,672 |
| Recreation | 218,990 |
| Library | 79,942 |
| | \$ 3,002,537 |

Current year additions included \$203,609 of donated improvements from developers.

Business-Type Activities:

Capital assets of the Enterprise Fund consisted of the following at June 30, 2015:

| Asset | Balance July 1, 2014 | <u>Increases</u> | <u>Decreases</u> | Reclasses | Balance June 30, 2015 |
|---------------------------------------|----------------------|------------------|------------------|-------------|--------------------------|
| Capital assets not being depreciated: | | | | | |
| Land | \$ 976,993 | - | - | - | 976,993 |
| Water storage rights | 1,636,695 | - | - | - | 1,636,695 |
| Construction in progress | 2,255,694 | 2,539,164 | - | (4,628,880) | 165,978 |
| Capital assets being depreciated: | | | | | |
| Utility plant and buildings | 63,493,950 | 131,296 | - | 4,628,880 | 68,254,126 |
| Machinery and equipment | 6,399,253 | <u>244,404</u> | - | - | <u>6,643,657</u> |
| Total capital assets | 74,762,585 | <u>2,914,864</u> | - | | <u>77,677,449</u> |
| Less accumulated depreciation: | | | | | |
| Utility plant and buildings | 21,991,536 | 1,598,148 | - | - | 23,589,684 |
| Machinery and equipment | 4,859,368 | 245,878 | - | - | 5,105,246 |
| Net capital assets | \$ <u>47,911,681</u> | 1,070,838 | - | | <u>48,982,519</u> |

Depreciation expense for 2015 amounted to \$1,844,026.

4) <u>RECEIVABLES</u>

A summary of receivables at June 30, 2015 is as follows:

| | Major | | | Self Insured | |
|-------------------|----------------------|----------------|------------|--|-------------------|
| | Governmental | Nonmajor | Water and | Medical Insurance | |
| | Fund | <u>Funds</u> | Sewer Fund | <u>Fund</u> | Total_ |

| Other taxes | 219,127 | - | - | - | 219,127 |
| Customer & other | 1,088 | 87,715 | 2,760,939 | 46,843 | 2,896,585 |
| Other governments | 1,819,608 | 165,828 | - | | 1,985,436 |
| Less allowance | (51,647) | | (554,189) | Name and American Control of the Con | (605,836) |
| Total | \$ <u>10,064,849</u> | <u>253,543</u> | 2,206,750 | <u>46,843</u> | <u>12,571,985</u> |

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

5) <u>DEFERRED OUTLFOWS AND INFLOWS OF RESOURCES</u>

Deferred inflows of resources consist of amounts that are unavailable to liquidate liabilities of the current period. At June 30, 2015 the various components of deferred outflows and inflows of resources were as follows:

| | G | overnment-wide Statements |
|--------------------------------|----|------------------------------|
| Deferred outflows of resources | | |
| Deferred charge on refunding | \$ | <u>386,237</u> |
| Deferred inflows of resources | | |
| Property taxes | | |
| 2015 assessed and unlevied | \$ | 7,650,000 |
| Estimated 2015 Hall Income Tax | | 82,270 |
| | \$ | 7,732,270 |

In the fund statements, deferred inflows of resources in the Proprietary Fund consists of deferred amounts on refunding. The deferred inflows of resources in the governmental funds of \$8,141,558 consist of unlevied property taxes of \$7,650,000, delinquent property taxes of \$409,288 and unavailable shared state and local taxes of \$82,270.

6) LONG-TERM DEBT AND OTHER OBLIGATIONS PAYABLE

The government issues general obligation bonds and notes to provide funds for the acquisition and construction of major capital facilities for general government purposes. These bonds are paid from the General and certain capital project funds.

The government also issues bonds where the government pledges income derived from the acquired or constructed assets to pay debt service. These bonds related to the Water and Sewer Enterprise Fund. Should water and sewer revenues be insufficient to pay the debt service, the debt is payable from the taxing authority of the City.

The following is a summary of changes in long-term liabilities for the year ended June 30, 2015:

| | Vaar |
|--|-------|
| July 1, 2014 Additions Reductions June 30, 2015 One | 1 Cai |
| Governmental Activities: | |

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

6) LONG-TERM DEBT AND OTHER OBLIGATIONS PAYABLE (Continued)

Advance Refundings

During 2015, the City issued general obligation refunding bonds (\$2,630,000), and water and sewer revenue and tax bonds (\$6,410,000), series 2014 (new debt). Proceeds of the issue were deposited to an irrevocable escrow account with a third party trustee to effect an in substance defeasance of \$1,860,000 general obligation, and \$6,560,000 water and sewer bonds, series 2005 (old debt). The refunding reduced debt service by \$200,535 in general obligation debt and \$700,406 in water and sewer debt. The net present value benefit was \$180,298 general obligation and \$615,556 water and sewer. The advance refunding resulted in a defeasance loss of \$46,091 general obligation and \$152,244 water and sewer, that is being amortized over the life of the old debt.

The City's refunding issues that have underlying refunded debt outstanding at June 30, 2015, consisted of the following:

| Defeased Deb | t |
|--|------------|
| | Balance |
| Description of Issues Refunded | 6/30/2015 |
| Water and Sewer Revenue and Tax Bonds 2002 | \$ 245,000 |
| Water and Sewer Revenue and Tax Bonds 2001 | 2,520,000 |
| General Obligation Bonds 2001 | 3,450,000 |

The 2005 Series bonds refunded in the current year, were defeased in August 2014 and paid off from escrow in April 2015 and were not outstanding at June 30, 2015.

Debt Coverage

The Water and Sewer Revenue and Tax Bonds do not require specific debt coverage ratios. The revenue of the system as well as the taxing authority of the City secure the debt.

The City entered into leases for the purchase of certain public safety communications equipment and police cars. The leases require repayment terms and have been accounted for as financing transactions. The City will have title to the assets by satisfying the minimum lease payments. The assets acquired through the capital lease are as follows:

| | Governmental |
|-------------------------------|-------------------|
| | <u>Activities</u> |
| Police cars | \$ 568,501 |
| Communication equipment | <u>2,864,401</u> |
| Total | \$ 3,432,902 |
| Less accumulated depreciation | (1,153,680) |
| | \$ 2,279,222 |

The future minimum lease obligations and net present value of those payments are as follows:

| | | | Le | ase O | bligations | | | | Total |
|--|---------------------------|------------|------------------|-------|------------|---------|---|--------------------|----------------------|
| 2016 | \$ 163,340 | 129, | 053 | | 37,551 | 149,591 | | 65,270 | 544,805 |

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

7) <u>DEFINED CONTRIBUTION PENSION PLAN AND DEFERRED COMPENSATION PLAN</u>

The City provides pension benefits for all of its full-time employees through its money purchase pension plan (City of La Vergne 401 Money Purchase Pension Plan), a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees who have reached the minimum age of twenty-one are eligible to participate. Employees are eligible after 90 days. Monthly contributions of 1% of gross wages are required of all participants. The City of La Vergne contributes on behalf of each participant 4.5% of gross wages. The plan is administered by ICMA Retirement Corporation. The Board of Aldermen may make changes to the plan by Board resolutions. A separate audited financial report is not available for the plan.

The City's total payroll in fiscal year 2015 was \$8,809,751. The City's contributions were calculated using the base salary amount of \$5,671,786.

The contributions to the plan by the City for the year ended June 30, 2015 were \$255,529, and total contributions by employees were \$56,718.

Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Service Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The City has no fiduciary responsibility under the provisions of the Plan. The Plan specifically provides that all assets under the Plan and all income attributable to those assets are solely the property of the employee.

8) <u>COMMITMENTS AND CONTINGENCIES</u>

Litigation

The City is presently involved in certain matters of litigation that have arisen in the normal course of conducting City business. Some of these matters will be covered by the City's insurance programs should unfavorable outcomes materialize. City management believes, based upon consultation with the City Attorney, that these cases, in the aggregate, are not expected to result in a material adverse financial impact on the City.

Contractual Agreements

The City is under contract with the Metropolitan Government of Nashville and Davidson County, Tennessee (Metro) to provide sewer treatment services for its customers. The City paid \$1,612,302 under the contract for 2015. The contract is through November 2019.

The City has a contract with an engineering company to provide for operating services of the water treatment plant. The contract provides for a monthly charge plus an amount for excess maintenance and utilities. The contract is through February 2016 and during fiscal 2015 the City paid \$1,717,694 under the contract. The current annual base amount is \$1,744,089.

Construction Contracts

The City has several utility related contracts which total approximately \$702,000 which were approximately 60% complete at June 30, 2015.

Grant Programs

The City participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The City is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

8) <u>COMMITMENTS AND CONTINGENCIES</u>, Continued

Contingencies

The City previously participated in the Local Government Insurance Cooperative (LOGIC), a public entity risk pool that operated as a common risk management and workers' compensation insurance program for approximately one hundred governmental entities. LOGIC was self-sustaining through member premiums and also obtained specific excess and aggregate excess coverage through a commercial insurance company. The City has learned the commercial insurance company is in bankruptcy, and the City may be assessed by LOGIC to help cover claims incurred during the City's participation. All known assessments have accrued. The City does not believe, based on current information, any potential future assessments would be material to the City's financial statements.

The State of Tennessee Department of Transportation claims the City owes \$1,590,909 in costs related to improvements to a road completed in 2014. This claim is included in the general long term debt of the City. The City expects to pay the liability over future years beginning in fiscal year 2016. In reviewing these costs subsequent to the State making the claim, the City believes costs in the amount of \$747,025 could have been mistakenly charged to the project and has filed a complaint against the State to resolve this issue. No provision has been made in the financial statements related to the City's claim.

9) INTERFUND TRANSACTIONS

Interfund receivables and payables are attributable to obligations for operating transfers between funds. The consolidation of the internal service fund resulted in an internal balance of \$516,675.

Interfund transfers for the year ended June 30, 2015 are attributable to the budgeted allocation of resources from one fund to another and consist of the following:

Transfer In

| | Transici in | |
|--------------|-----------------------------------|--------------------------------|
| Other (| Governmental Fun | ds |
| | | Highways and Streets |
| Senior | Drug | Capital |
| Citizens | Enforcement | Projects |
| Fund | <u>Fund</u> | <u>Fund</u> |
| \$ 60,000 | 30,000 | 1,220,000 |
| \$ | Senior Citizens <u>Fund</u> | Citizens Enforcement Fund Fund |

10) RISK MANAGEMENT

The City has chosen to establish the Self Insured Medical Insurance Fund (internal service fund) for risks associated with the employees' health insurance plan. The fund is accounted for as an internal service fund where assets are set aside for claim settlements. The City retains the risk of loss to a limit of \$75,000 per employee, and \$2,834,497 aggregate annual cap. The City has obtained a stop/loss commercial insurance policy to cover claims beyond this liability. All full-time employees of the government are eligible to participate. A premium charge is allocated to each fund that accounts for full-time employees. This charge is based on estimates made by an outside insurance consultant of the amounts needed to pay prior and current year claims and to establish an amount for catastrophic losses. Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The Fund establishes claims liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. The process used to compute claims liabilities does not necessarily result in an exact amount. For the government-wide statements the activity and assets and liabilities of this fund have been allocated to the participating funds.

Changes in the balance of claims liabilities during the past three fiscal years are as follows:

| | Beginning-of- | Current Year Claims | Claim | |
|-----------|-----------------------|--------------------------|-----------------|----------------|
| | Fiscal-Year Liability | and Changes in Estimates | Payments | FiscalYear-End |
| 2012-2013 | 3 260,840 | 2,652,249 | (2,744,947) | 168,142 |
| 2013-2014 | 168,142 | 3,023,141 | (3,042,402) | 148,881 |
| 2014-2015 | 148,881 | 3,052,963 | (3,419,997) | 218,153 |

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

10) RISK MANAGEMENT, Continued

The City is exposed to various other risks and losses. The City deemed it was more economically feasible to participate in a public entity risk pool as opposed to purchasing commercial insurance for general liability, property and casualty, and workers compensation coverage. The City participates in the TML Insurance Pool which is a public entity risk pool established by the Tennessee Municipal League, an association of member Cities. The City pays an annual premium to the TML for its general liability, property and casualty and workers compensation insurance coverage. The creation of the pool provides for it to be self-sustaining through member premiums. The pool reinsures through commercial insurance companies for claims in excess of certain amounts for each insured event. Settled claims from these losses have not exceeded insurance coverage in any of the past three fiscal years.

11) BUDGET COMPLIANCE AND ACCOUNTABILITY

The City of La Vergne is required by State statute to adopt an annual budget. The City legally adopts budgets for all governmental funds. These budgets are prepared on the basis that current available funds must be sufficient to meet current expenditures. Expenditures may not legally exceed appropriations authorized by the Board of Mayor and Aldermen. The City's budgetary basis is consistent with generally accepted accounting principles. The legal level of budgetary control is at the department level. Any changes to departmental total budgets must be approved by the council.

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The City Administrator submits to the Board of Mayor and Aldermen a proposed operating budget for the fiscal year commencing July 1. The operating departmental budget establishes the budgetary level of control for the proposed expenditures and the means of financing them.
- 2. Public hearings are conducted at the City Hall to obtain taxpayer comments.
- 3. Prior to June 30, the budget is legally enacted through passage of an ordinance. In no event shall the total appropriations for any fund included in the budget exceed the estimated revenues and unappropriated fund balance.
- 4. Formal budgetary integration is employed as a management control device during the year for all governmental fund types.
- 5. Budgets are adopted on a basis generally consistent with generally accepted accounting principles (GAAP). These budget appropriations lapse at year end.

During the fiscal year, the General Fund original budget was amended by increasing budgeted expenditures \$3,437,658 or 17.8%. The primary amendments related to Public Safety expenditures of \$3,097,541. The original budgets for the nonmajor governmental funds were increased by \$125,000 primarily related to grant projects, street lighting and maintenance. The major governmental fund Capital Project Fund expenditure budget was amended by \$209,000 for capital projects and transfers were increased \$1,220,000 to fund projects that were delayed until the next fiscal year.

Notes to Financial Statements (Continued)

For the Year Ended June 30, 2015

12) SUBSEQUENT EVENTS

Subsequent to year end, the City was awarded a federal grant for approximately \$120,000 for fire department related equipment. The grant requires a 10% match from the City.

NONMAJOR GOVERNMENT FUNDS

State Street Aid Fund accounts for the state shared gasoline taxes and the usage of these monies for street maintenance.

Drug Enforcement Fund accounts for drug fines and grants received and usage of those monies to further drug education and investigations.

Stormwater Fund accounts for fees collected specifically to provide funds to address stormwater run-off.

Problem Solving/Redeployment Fund accounts for revenues from grants received for the purpose of deterring crime and the expenditures related to the grant.

Senior Citizens Fund accounts for grant revenues and expenditures related to the operation of the senior citizens center.

Police Impact Fee Fund accounts for fees collected specifically to provide funds for public safety capital items.

Parks and Recreation Improvement Fund accounts for revenues, primarily impact fees, and expenditures associated with the construction and improvement of parks and recreational facilities.

STATISTICAL SECTION

This part of the City of La Vergne's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the city's overall financial health.

Schedule # Contents Financial Trends These Schedules contain trend information to help readers understand how the City's financial performance and well - being have changed over time. 1-4 Revenue Capacity These Schedules contain information to help readers assess the City's most significant local revenue source-its property tax. 5-8 **Debt Capacity** These Schedules present information to help readers assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. 9-13 Demographic and Economic Information These Schedules offer demographic and economic indicators to help readers understand the environment within which the City's financial activities take place. 14-15 Operating Information These Schedules contain service and infrastructure data to help readers understand how the information in the City's financial report relates to the services the City provides and the activities it performs. 16-18

Except where noted, the information in these Schedules is derived from the City of La Vergne's comprehensive annual financial reports for the relevant year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAUDITING STANDARDS

Honorable Mayor and the Board of Aldermen La Vergne, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of La Vergne, Tennessee, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise City of La Vergne, Tennessee's basic financial statements, and have issued our report thereon dated October 16, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of La Vergne, Tennessee's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of La Vergne, Tennessee's internal control. Accordingly, we do not express an opinion on the effectiveness of City of La Vergne, Tennessee's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of La Vergne, Tennessee's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

We noted certain other matters that were reported to management in a separate letter dated October 16, 2015.

Honorable Mayor and the Board of Aldermen City of La Vergne, Tennessee

City of La Vergne's Response to Findings

The City of La Vergne's response to findings identified in our audit is described in the accompanying schedule of findings and responses. The City of La Vergne, Tennessee's response was not subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

October 16, 2015

Schedule of Findings and Responses

June 30, 2015

Prior Year

During the 2014 fiscal year, the State of Tennessee presented the City with a claim for reimbursable costs related to improvements to City roads. The projects were administered by the State and the major costs related to a road project completed in the current fiscal year. The claimed costs significantly exceeded amounts initially projected and communicated to the City. These claimed reimbursable costs have resulted in the expenditures of the Capital Projects Fund to exceed appropriations by \$724,848. The State has experienced computer problems which contributed to the City not being notified of these costs on a more timely basis.

Response: The City was not aware of these potential costs in time to include them in the original current year budget and has not received full documentation of the costs from the State. We are reviewing the claims and have requested additional documentation from the State to explain the additional costs. After final review, the City expects to authorize the payment of the determined amount beginning in fiscal year 2016.

Status: Resolved.

Current Year

None.
